Company Profile

A Global Brand in Digital Printing Media Field

Printec Co., Ltd is a professional digital printing media company based on the trust of the product efficiency, convenience and affordability with a smart business system.

In pursuit of building the office system equipped with efficiency, convenience, and economic feasibility as our motto.

We, Printec do the best in providing users with utmost customer service based on continuous efforts on improving quality of products and our technologies.

Work Smarter

Printec Website

www.printec.com

01 Various ways to make labels

Exclusive free software download and update available.

Software Download

Free Download Printec Label Maker.
Easy to make your labels with Printec Label Maker.
www.printec.com

Use Microsoft® Word

Printec codes are available in MicroSoft® Word.
Mailings > Labels > Options >
Labels vendors : Printec > Product Number

Microsoft® is Microsoft® corporation registered trademark.

MicroSoft® Word Templates

Download free MicroSoft® Word templates in Printec® official website.
Home > Software & Templates > MS Word Templates

Avery® Compatible Code

Compatible codes with Avery® can be found at Printec® website.

02 Enjoy Printec® Label Maker with various uses!

Shipping labels

- Ideal for cargo, parcel and logistic purpose

Address labels

- Ideal for invitation, greeting card and DM dispatch

Business card

- DIY to make business card

File index labels

- Ideal for keeping files, documents and binders

CD / DVD labels

- Music CD and Movie DVD

DIY labels

- Packing for gift, sticker and producing various accessories

03 Customer service

Please visit to our website and find the software manuals for further information.
Customer friendly service is available for customer satisfaction.

Customer Service on website

www.printec.com

On-line remote service, 1:1 personalized questions including Q&A

Software

Let's compare between Inkjet clear label and clear label!

[Inkjet Clear Labels]

• High transparent label that see-through clear feature

VS

[Clear Labels]

• Translucent label that faintly see-through clear feature

compare General label and cover up label!

When attaching a label above the contents, it might be see-through.

Cover-up label makes you amend documents and files neatly as the printings don't show through on the other side.

Fluorescent Color Labels

• Ideal for emphasizing certain phrases or fancy purposes.

How to make the best printing condition with Printec photo paper!

Photo paper, right printing settings make high quality printings

Unless being upright printer setting, print quality and paper feeding of printer is failures because Photo Paper is thicker than A4 size plain paper and surface of photo paper is soft and smooth. If so, The printing option will help to solve out the problem and get a photo quality output.

How to distinguish a printing side

Printing should be on bright face.

Setting up the printer - the recommended setting for getting best results

[Control panel] - [Printer and faxes] - [Properties] - [Printing options]
After choosing the printers, please set the printing options according to the below instruction.ows.

3. Not recommendable for bottom up feeding printer.
4. Keep away from any data materials weak to magnetic.

How to use?

Product code and size

Code	Application	Weight	Sheets/Pack	Paper Size
A9210 / E9210	Magnet Paper	200 mic	5	210 X 297 mm [A4]

Pouch Film

Laminating Pouch Film

- Glossy laminating films are available.
- Printings look more vivid after laminating and it offers long lasting from external hard conditions.
- **Thickness : 100mic**

■ Glossy Film

It is made by high transparent PET film that makes the color and image more vivid.

Cautions for laminating machine

For clear coating, please keep the laminating machine and film away from the dust. And please don't exceed the recommended film thickness of laminating machine.

Temperature Coating : 80~120°C

Product code and size

Code	Application	Base	Thickness	Sheets/Pack	Paper Size
AG1040 / EG1040	Laminating Pouch Film	Glossy	100mic(50/50)	20 , 100	216 X 303 mm [A4]
AG1030 / EG1030	Laminating Pouch Film	Glossy	100mic(50/50)	20 , 100	303 X 426 mm [A3]

How to use Laminating Pouch Film?

1. Turn on a laminating machine and prepare the laminating films.

2. Put a paper to be coated between films correctly.

3. Insert it from the sealed-side and then, Pass it through.

4. Finish (if coated side is not even, please coat it again)

Cold Pouch Film

- Thanks to high durability of adhesive coating, it makes it possible easy laminating without using a laminating machine.
- Put and laminate by removing a protection film behind.
- **Thickness : 100mic**

Product code and size

Code	Application	Base	Thickness	Sheets/Pack	Paper Size
AG2140 / EG2140	Cold Pouch Film	Glossy	100mic	20 , 100	223 X 315 mm [A4]
AG2130 / EG2130	Cold Pouch Film	Glossy	100mic	20 , 100	310 X 433 mm [A3]

How to use cold Pouch Film?

1. Remove the protection film of laminating film partially.

2. Put a paper into a film and laminate the film carefully while removing the protection film.

3. Laminate the film not to make air bubble by rubbing it slowly and carefully.

4. Trim to size to be fitted. And, the same way for double side laminating.
